

About Us

We're thrilled to introduce an innovative and enriching speech and language therapy program led by two dedicated speech pathologists, Melissa Toubin, MA CCC-SLP TSSLD, and Andrea Foesel, MST MS CCC-SLP, TSSLD. Designed for children of all abilities, this unique experience blends the joy of play with the power of language enrichment in an engaging group setting.

Our Approach

Playtime Voices is centered on a collaborative and differentiated instructional model that honors each child's unique strengths and needs. Through playful interactions and sensory exploration, our speech pathologists will guide your child on a journey of discovery while encouraging language development in a natural, engaging environment. Whether it's through games that stimulate vocabulary growth, sensory activities that enhance communication skills, or literacy-focused adventures that spark a love for reading, our intention is to create a supportive and dynamic learning experience encouraging each child to use their individual **Playtime Voice!**
